

## Are you moving or spring cleaning?

Please be courteous when placing items out for the garbage by following these rules:

1. Items should be bagged when possible and stacked neatly at the curb or alley.
2. Containers should not weigh more than 50 pounds.
3. Keep metal items separate from other garbage.  
Call 775-5242 for special pick up.
4. Break down boxes for recycling.

Please consider donating any items that are still in good condition to your favorite charity instead of throwing them in the garbage. Many charities will pick up items if you don't have a way to transport them.

*Thank you for your assistance!*

The following charities are just a few options  
for unwanted items that are still in good  
shape:

**1. Habitat For Humanity Restore**
